# Name

The **Name** field is a form field to efficiently collect name-related information within your forms.

Properties

- **Name Elements:** The Name field typically comprises multiple elements, including **Title** (Mr., Mrs., Ms.), **First Name**, **Middle Name**, and **Last Name**.
- Designate specific name elements as mandatory by clicking the ⬤ icon corresponding to an element. This ensures that respondents provide essential components, such as the first and last names, enhancing the completeness of the collected data.
- Hide the labels associated with name elements, offering a clean and streamlined appearance to the form. This can be particularly useful when space is a consideration, or when you prefer a more minimalist design.
- **Input Type**:
  You can choose the **Input Type** in which the respondents can provide input in the **Name** field from the following options:
  - Any Character
  - Letters Only
  - Letters and Numbers
  - Letters, Numbers and Spaces
  - Letters and Spaces

This provides flexibility in adapting the Name field to different naming conventions or specific data requirements.

- **Placeholder Text:** Provide a placeholder text for each name element in a form to enhance user guidance and set expectations for respondents. Placeholder text serves as a temporary example or hint within the form fields.
- **Input Text Case:** You have the flexibility to control the visual presentation of the entered text, aligning it with the intended formatting standards for your form.
  - System Default
  - Upper Case
  - Lower Case
  - Proper Case
