Zoho Corporation

Creating an account with Zoho Learn

Creating a Zoho account

If you are new to Zoho, you will need to create an account to access Zoho Learn.

To create an account with Zoho:

1. Visit the Zoho Learn homepage.
2. Click the **Get Started** button.
3. Enter your email id and set a password for your Zoho account.
4. The default data center for your account will be selected based on your IP location. Click **Change Country** to change the default data center, then select a Country from the list.
5. Click **Sign up for free**.

Creating a hub

A hub is a network for all the members of your organization. The admin of the hub can add members and change the settings of the hub.

To create a hub:

1. Log in to Zoho Learn, enter a name for the hub and the URL.
2. Click **Create Hub**.

Get started by giving your hub a name

This could be your company name and it will be displayed on top of your Zoho Learn page.

Hub name

Hub URL
