# Favorite Places - Mobile

You can save your frequently visited places as your favorite locations in RouteIQ. You can then use your favorite places as the start or end points when creating routes.

## Adding Favorite Places

1. Tap **Favorite Places** to view a list of your favorite places from the settings menu.

2. Tap **Add a new address**.

3. Search for the location you want to add to your favorite places list.
4. Select between home, work, or others for custom name.
5. Mark the address as the default start or end location.
6. Tap **Save** to add the location to your favorite places.
