

Selecting Records - Mobile

There are a few different ways to select pins/records in RouteIQ.

- Select from list view
- Select using Lasso
- Select all pins

Selecting from the list

1. Long-press the desired record to select it.
2. You can create a new route with the selected records or add them to an existing route.

Lasso

The lasso feature enables you to select a group of records on the map by circling the required pins.

How to use the Lasso feature

1. Tap on the **Lasso icon**. This will enable the cross hairs.
2. Draw a shape that encloses the desired pins on the map to select them.
3. Create a new route with the selected records or add them to an existing route.

Select all pins

1. Tap on the **select all pins** icon select all pins on the map.
2. Create a new route with the selected records or add them to an existing route.
